FileMaker Starting Point is an exciting new starter template from Richard Carlton Consulting. With the arrival of FileMaker Pro 10 and a list of new features, FileMaker Starting Point utilizes those features for powerful functionality. Aimed at small businesses, work groups, and non-profit organizations this free new template makes building a profitable business solution remarkably easier.

Created by the same team that built the brand-new FileMaker Pro 10 Starter Solutions, you will find a familiar interface and design to build your own solution. In addition, this team of engineers has applied eighteen years of custom FileMaker experience and now offers you FileMaker Starting Point, for FREE!
